

ATTN STUDENTS: *YOU* can participate in the **LT. GOVERNOR'S** Computing Challenge Accepting submissions until April 28, 2023

NO EXPERIENCE NEEDED!

Computing is not the future. **It's the here and now**, it's fun, and the LGCC is offering students and teachers **free** virtual computing lessons that can help students with LGCC submissions!

CT students in **grades 3-12** can submit individual or group computing ideas in one of three LGCC categories: ***concept, prototype, and develop***

The challenge is ON!

JOIN IN, starting with these unique, fun learning opportunities. You can learn how to write basic code to help a **robot relax or exercise a robot!**
